

Cheryl Badger
Manager, Change Management
Northrop Grumman Corporation

Ms. Cheryl Dunn Badger is a Senior Organizational Change Management (OCM) and Communications professional at Northrop Grumman since 2016. As a Northrop Grumman Strategy Consultant Cheryl specializes in client engagement, program delivery and maximizing the adoption of new technologies and business processes. Her customer support crosses multiple business sectors and functional areas including military, intelligence, cyber, federal, state and local, international and commercial. Prior to joining Northrop Grumman, she completed a

twenty-year tenure with Dow Jones and Company, The Wall Street Journal, as the Global Director of Employee Training and Development and later as the Global Director of Organizational Change Management.

A 4-year Blockchain enthusiast, Ms. Badger has directed her interest in emerging technologies toward the Humanitarian uses of *Blockchain for Positive Impact* and its potential to benefit the public sector and primarily the disadvantaged. She works alongside startup alliances focusing on socially responsible investments and humanitarian activism. In addition, Cheryl serves as an OCM consultant for Syncrasy Technologies, a London and India-based company specializing in the design of client ICOs, Blockchain Banking Consortiums and exchange platforms built on blockchain solutions.

She also serves as a chair and thought leader for the Northrop Grumman Blockchain Center of Excellence and Innovation.

After completing undergraduate studies in Biology at Hampton Institute Ms. Badger began her career in the Pharmaceutical and Medical research industry initially with The National Institutes of Health, Lederle Laboratories, American Cyanamid, Wyeth Laboratories, and later Covance, Inc.

Cheryl resides in Hanover, Maryland and is a native of Washington, D.C.
